

BESPOKE MACHINE GUARDS

Application

Design and manufacture of custom designed safety guards, to prevent access by unauthorised personnel into a hazardous area. Guards are designed in compliance with the latest Standards.

Construction

Guards can be constructed by a framed mesh system or infilled with solid sheet metal, to suit the necessary application.

Interlocks

Electrical or mechanical interlocks can be provided to ensure access is only possible when the machine is in a safe condition.

Finish

Guards are polyester powder coated in a colour of your choice.
