

LOW COST SAFETY FENCING

Application

Design, manufacture and installation of modular safety fencing, to prevent unauthorised access into a dangerous area. Guards are designed in compliance with BSEN953. Guard lines can be determined via a site measure or by over laying our guards onto customer CAD drawings for approval.

Construction

Guards are constructed from 100 x 22 mesh for optimum visibility. Posts can be made from 40 x 40 or 60 x 60 section depending on the environment they will be in.

Interlocks

Electrical or mechanical interlocks can be provided to ensure access is only possible when the machine is in a safe condition.

Finish

Guards are polyester powder coated Yellow, black or grey; other colours are available at extra cost.
